Re: *Application by SBC Communications Inc., et al. for Provision of In-Region,
InterLATA Services in Michigan, WC Docket No. 03-138*

Dear Ms. Dortch:

On behalf of SBC Communications Inc., I am attaching a copy of an Accessible Letter that was released today relating to an incident concerning daily usage files that occurred earlier this month. Jamie Williams, on behalf of SBC, spoke about this issue yesterday with Gina Spade of the FCC, indicating to her that an Accessible Letter would be forthcoming.

In accordance with this Commission's rules governing ex parte communications, we are filing an original and two copies of this letter and attachment. Thank you for your kind assistance in this matter.

Sincerely,

Geoffrey M. Klineberg

SBC Midwest Region 5-State is sending notification that it recently discovered a coding error related to a software release that resulted in some records in the Daily Usage File (DUF) being mislabeled. Specifically, certain un-rated (category 10) call records were labeled and sent as billable (category 01) call records. The coding error did not affect the contents of the call records, which were correct. This occurred during the period of June 7, 2003 through June 16, 2003, inclusive. The coding error was corrected on June 16, 2003; therefore call records sent on June 17, 2003 and thereafter are correctly labeled.

SBC Midwest Region 5-State is in the process of re-labeling the affected call records, and will make them available to any CLEC, upon request at no additional charge. A CLEC that wants its records re-labeled should contact its Account Manager no later than thirty calendar days from the date of this Accessible Letter.
